

I want to implore you not to take K-love off our local station. K-love is a radio station that is family friendly and instills the type of values that are important to the families in our community. I believe K-love is integral in helping families across the Lexington community by playing music that parents do not feel they have to constantly monitor. Please take the families in our community in consideration as you make this decision to intergrate LPFM. Thank you, Candace Flener
